### **Item 3 Fees, Costs, Conflicts and Standard of Conduct**

#### ***What fees will I pay?***

Our fees can be assessed quarterly and are disclosed in our Form ADV Part 2A and Fee Schedule found on our website. Some fees create a conflict of interest described below.

- If our firm charges you transaction fees, the firm has an incentive to encourage you to trade more frequently.
- If our firm charges you a commission, our representatives may offer products to you that cost more and therefore you will be charged more.
- If our firm charges hourly fees, our firm has an incentive to recommend specific courses of action through the firm's services that may lead to representatives and/or the firm receiving additional compensation.
- What fees will I pay? Our fees vary depending on the services you receive. Additionally, the amount of assets in your account affects our advisory fee; the more assets you have in your advisory account our advisory fee; the more assets you have in your advisory account, the more you will pay us and thus we have an incentive to increase those assets in order to increase our fee. For hourly fee arrangements, each additional hour (or portion therefore) we spend working for you would increase the advisory fee. Our fixed fee arrangements are based on the amount of work we expect to perform for you, so material changes in that amount of work will affect the advisory fee we quote you. Specifically, fees are paid as follows: Portfolio management fees are charged quarterly in advance, while Financial planning fees are charged as a separate fee and are negotiated on either a fixed rate basis or by the hour depending on the level of service needed and agreed upon by the client. You pay our fee even if you do not have any transactions and the advisory fee paid to us generally does not vary based on the type of investments selected. Please also see Items 4, 5, 6, 7 & 8 at: <https://www.adviserinfo.sec.gov/IAPD/default.aspx> .

There are other fees and costs related to our investment adviser and brokerage services in addition to the principal fees and costs that you will pay directly or indirectly. Examples of our most common fees and costs are insurance fees, mutual fund fees and Commissions.

#### **Additional Information:**

**You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.**

**For more detailed information about our fees and costs please review our Form ADV, Part 2A brochure (specifically Items 5.A., B., C., and D.) which can be found at <https://www.adviserinfo.sec.gov/IAPD/default.aspx>. For more detailed information about our broker-dealer fees and costs please review our Regulation BI disclosure and Fee Schedule found at [www.corinthianpartners.com](http://www.corinthianpartners.com).**

**Conversation starters.** *Ask your financial professional:*

– *Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?*

*What are your legal obligations to me when providing recommendations as my broker-dealer or when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?*

When we provide you with a recommendation as your broker-dealer or act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the recommendations and investment advice we provide you. Here are some examples to help you understand what this means.

- Our firm makes money by offering products and services to you that we in turn earn money on and therefore have an incentive to sell these products to you.
- If you invest in mutual funds or variable insurance products, our firm has an incentive to encourage you to invest in positions that may be costly, dependent on amount purchased and time horizon.
- Some of our financial professional are licensed insurance agents and registered representatives of a broker-dealer. In these separate capacities, they may receive commissions on the sale of insurance or securities products to you.
- Our firm receives third-party payments for certain products it offers as well as certain share classes and therefore has a financial incentive when recommending. These payments will impact the value of your investment over time. (e.g., mutual funds, variable annuities, etc.)

**Conversation starters.** *Ask your financial professional:*

*– How might your conflicts of interest affect me, and how will you address them?*
